Overall Dimensions

Width Left: 7"

Width Right: 7"

Height: 48 1/4"

Thickness: 2 1/2"

Why Choose "Easy Corners"?
Perfect for do-it-yourself projects, SerenyStone "Easy Corners" are simple and quick to install. Unlike traditional corners, there's no need to inter-lock the corner and panel keys, or to create mitered corners by cutting panels. Once the "Easy Corners" are installed, you just have to cut panels to size and butt them to the corners. Nothing could be easier!
